- 5" x 7"
- Landscape
- Holds 5" x 7" graphic
- Landscape mounted
- NO Logo bottom
- HOSE mounted
- Loading edge 5"

Details on Gas Pump Frames

All frames sold online are Black color. We can also make any custom size or colors in quantity, please inquire.

All frames have the mounts pre-installed on each frame, the way you have ordered it. They are not removable or changeable. No graphic insert or backer is included.

The "Alpina Logo" graphic shown in the pictures are for illustration only.

Surface mount frames are pre-installed with a high tack, outdoor use double sided tape and alcohol wipes for quick, easy and durable installation on your pumps. Extra foam mounting tape is available.

Our frames hold conventional sized graphics either 5" x 7" or 8.5" x 11."

The ideal graphic insert is a .040 thick Polystyrene graphic. You can supply your own, or we can quote for us to print for you. But, we can also provide the frames with clear plastic panels at a low extra cost where you can sandwich a paper graphic in between to display in the frames. This is convenient if you want to print out simple messages, ads, promotions from a laser printer on site for quick and easy message display in the frames.
